Handicraft

(Fine Jewelry Collection)

Brief : To create contemporary Beadwork jewellery on old traditional handicraft techniques.

Beadwork is the art or craft of attaching beads to one another or to cloth, usually by the use of a needle and thread or soft, flexible wire. Most beadwork takes the form of jewelry or other personal adornment, but beads are also used in wall hangings and sculpture. Beadwork techniques are broadly divided into loom and off-loom weaving, stringing, bead embroidery, bead crochet, and bead knitting.

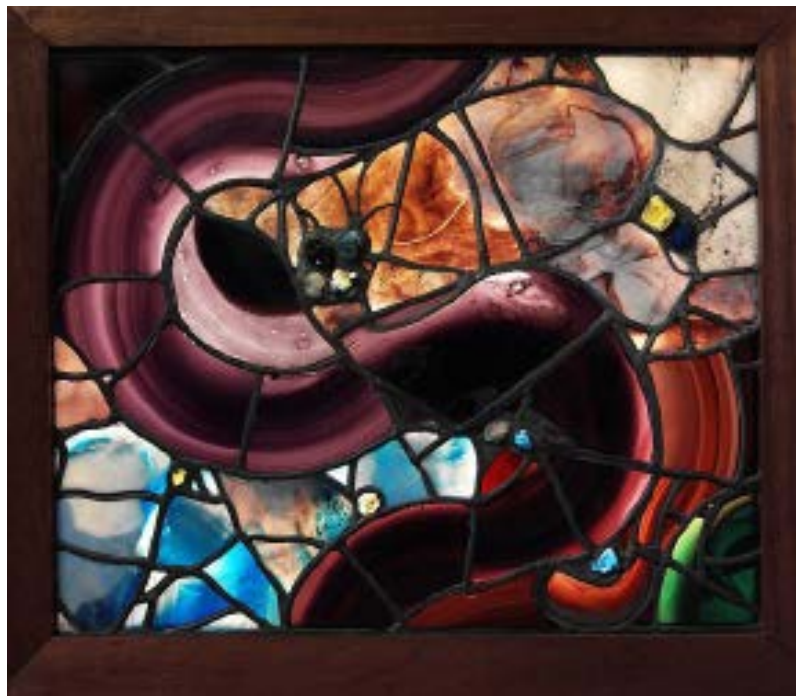

Glass

(Fine Jewelry Collection)

Although mainly known as an architect, Frank Lloyd Wright was also active in many related areas as well, including furniture design, graphics arts, and my favorite his work with stained glass. He designed well over 4,000 leaded glass windows and doors for over 150 of his buildings. There were rarely referred to as “art glass windows”.

One of America’s most acclaimed artists, Louis Comfort Tiffany’s career spanned from the 1870s through the 1920s. He embraced virtually every artistic and decorative medium, designing and directing his studios to produce.

Thewa-Ras

(Nature Inspired Jewelry Colletion)

In the titled “Thewa - Ras” was inspired from the fruit orange and the texture it has been used in the form of jewelry in my design.And other inspiration that I have used in My jewelry is flower petals.In this course i learned and explored different arts and craft that are followed in the region of Rajasthan. It was a great experience learning about different art forms.

Jaipur is the capital city of the northern Indian state of Rajasthan is one of the most vibrant and colourful cities of India. The city of Jaipur symbolizes the genius of Sawai Jai Singh. It got its name from the founder Maharaja Jai Singh 2, the great warrior and astronomer, who ruled between 1693 and 1743. It is marked as a renaissance of the traditional town planning and architecture of India.It has a identity of its own which has been build up by the confluence of knowledge, science and art. Its more striking feature is the pink wash applied to the building, giving Jaipur its universal title.

Two States
(Traditional Temple Jewelry)

The title “Two States” this name was created because in this project I studie about two different state and studied their jewelry.In design Project 4 main focused on trational jewelry of India.

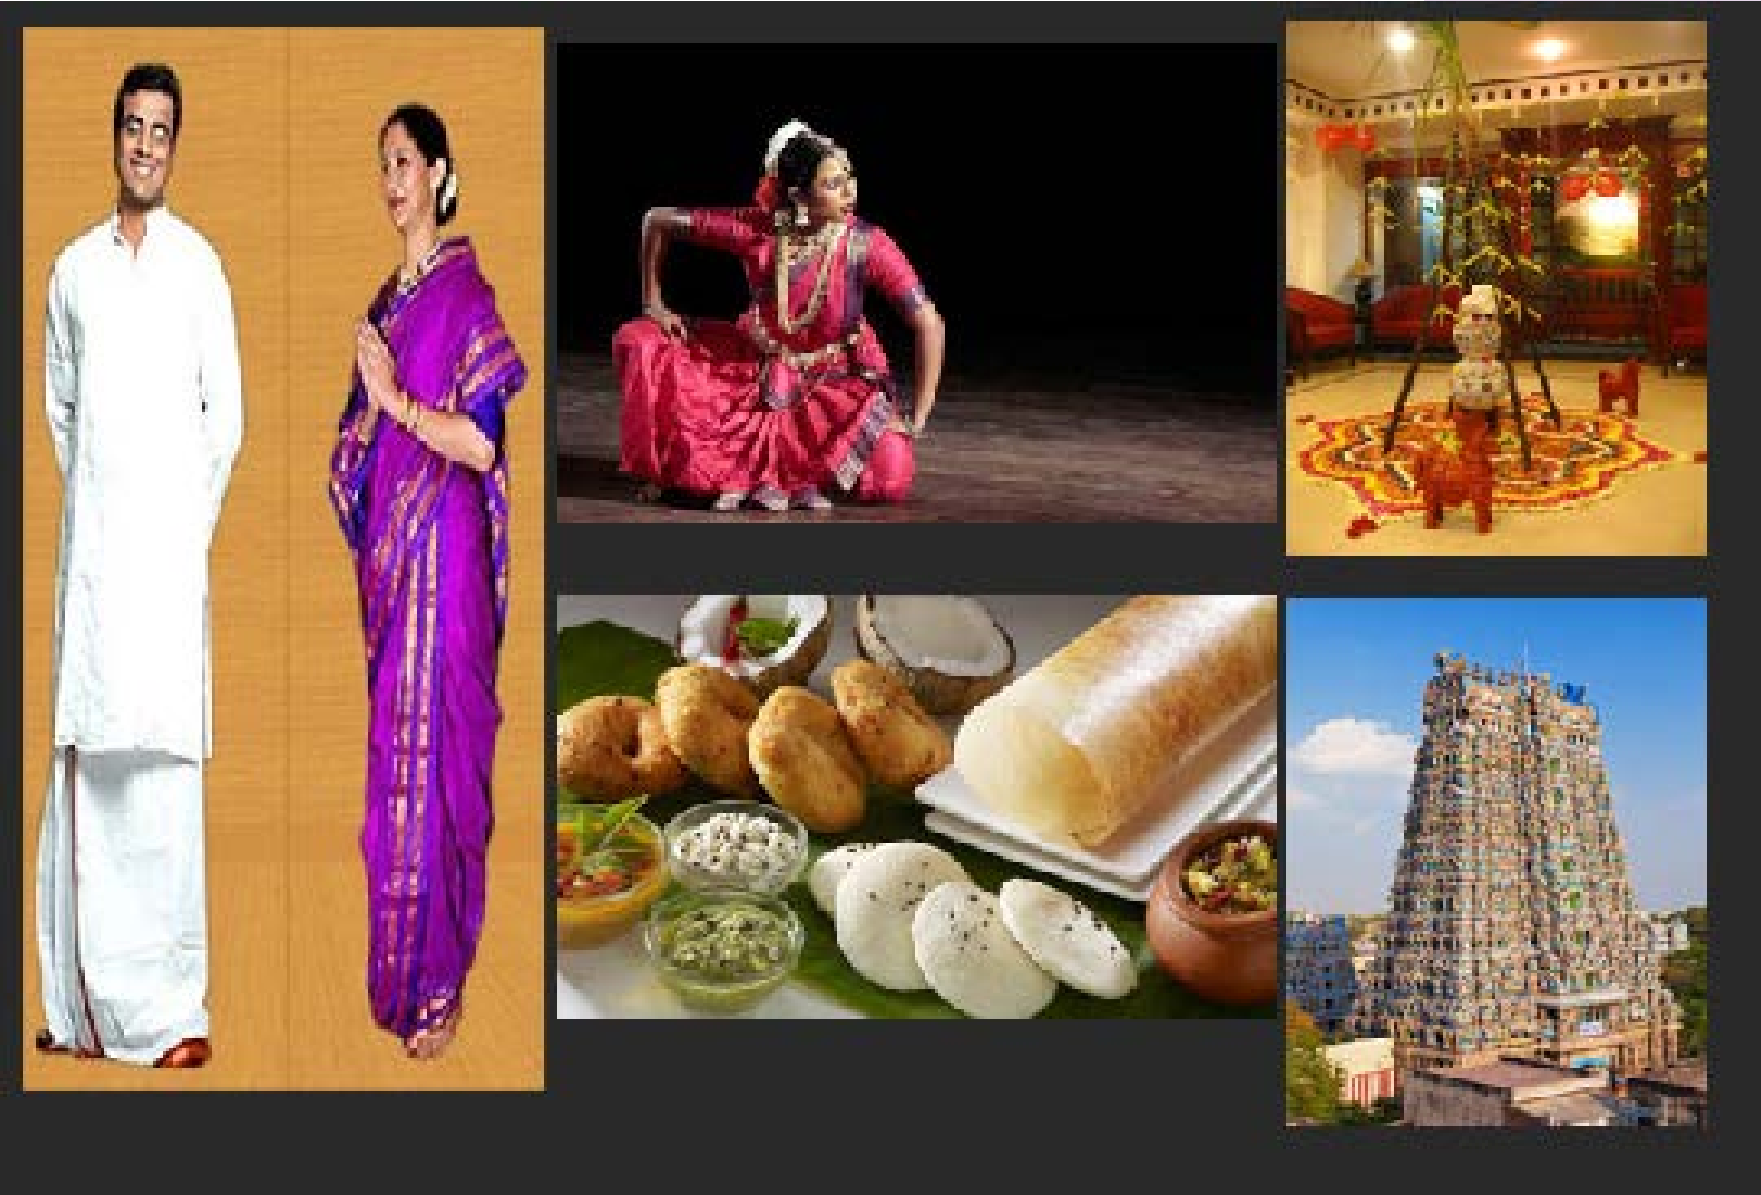

Assam state of India..It is located in the northeastern part of the country and is bounded to the north by the kingdom of Bhutan and the state of Arunachal Pradesh. The east by the states of Nagaland and Manipur, to the south by the states of Mizoram and Tripura, and to the west by Bangladesh and the states of Meghalaya and West Bengal. Tamil Nadu, state of India, located in the extreme south of the subcontinent.

Beautifier (Reflection Of Art Nouveau)

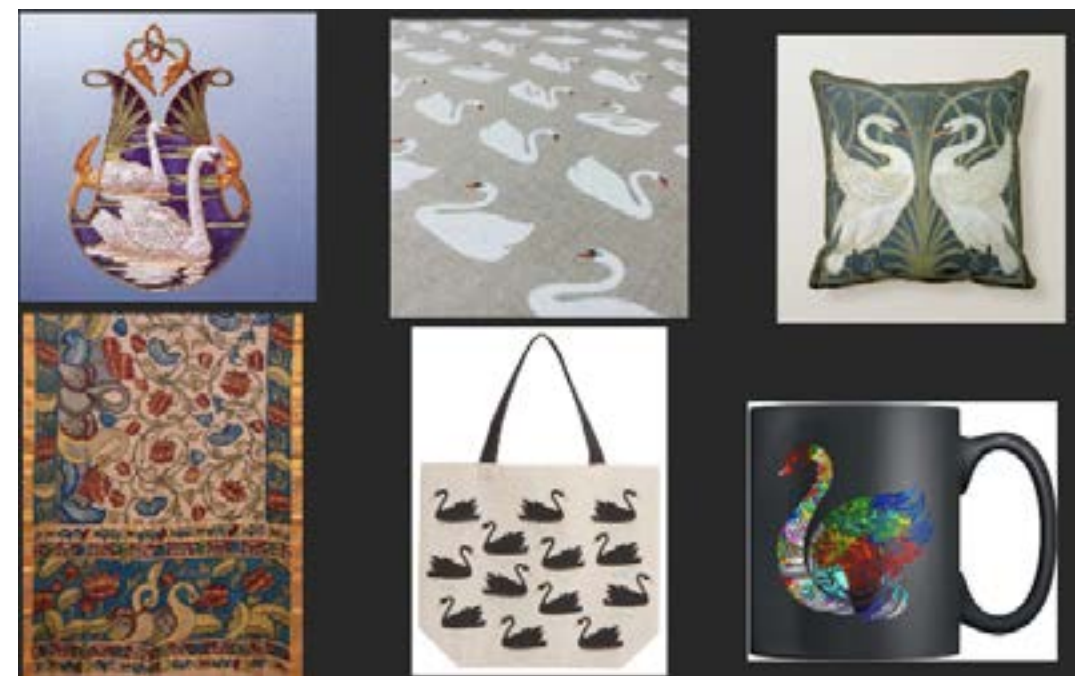

The title of my project "Beautifier" talks that jewelry is something that defines beauty on one's body. In Design Project 4 I studied two different Art Nouveau eras and the jewelry that they make and what is the flora and fauna that they use to make their jewelry. Then I selected my era and took a lot of inspiration from a bird and worked on my designs.

Art Nouveau - The Art - beautifier period 1890-1914. Although brief, it had a significant impact on jewelry design and on other disciplines of fine and decorative art. Art Nouveau jewelry originated in France, Belgium and other parts of Europe. And marked the transformation from the Victorian period to the modern. Artist-jewelers chose to work with semi-precious and even non-precious materials. Georgian Jewelry - The Georgian period covered the reigns of five English kings, four named George and one William. The reigns of George I, II, III, IV, and William IV lasted from 1714 to 1837. Georgian refers to the English art and culture produced during this era.
